

Storage Replication Adapter (SRA): SRA commands run slower than they did at initial setup

https://kb.netapp.com/Advice_and_Troubleshooting/Data_Storage_Software/Storage_Replication_Ada...

Updated: Sun, 04 Jul 2021 22:25:49 GMT

Applies to

- Storage Replication Adapter (SRA) 7.x
- Storage Replication Adapter 9.6x
- Storage Replication Adapter 9.7, 9.7P1
- VMware Site Recovery Manager (SRM)

Issue

- You are running a version of SRA that is susceptible to this issue
 - SRA 7.x

- SRA 9.6x
- SRA 9.7, SRA 9.7P1
- SRA commands run slower over time.
- In SRM, you may see new errors like `Timed out (300 seconds) while waiting for SRA to complete <command> command`.
