

How to troubleshoot unexplained takeovers or reboots

https://kb.netapp.com/Advice_and_Troubleshooting/Data_Storage_Software/ONTAP_OS/How_to_trou...

Updated: Mon, 02 Aug 2021 12:23:26 GMT

Applies to

- FAS3140/V3140
- FAS2000 series
- FAS3170/V3170
- Data ONTAP 7 and earlier

Description

An unexplained takeover or reboot is defined as an event that causes a reset of a controller, but does not provide any apparent panic information or core file with which to triage the cause of the reset.
