

Can we check the compatibility of the NetApp system with Zabbix

https://kb.netapp.com/on-prem/ontap/Ontap_OS/OS-KBs/Can_we_check_the_compatibility_of_the_Ne...

Updated: Sun, 05 Apr 2026 17:13:17 GMT

Applies to

- ONTAP 9

Answer

- The compatibility check of Zabbix with our NetApp system, needs to be checked from Zabbix end if that tool is capable of monitoring the system.

Additional Information

For monitoring the NetApp storage system via SNMP queries or API call access from the Zabbix server, provided we have correct MiB file matching ONTAP version added to Zabbix.
