

Auto configuration of drive alerts fails to work in SANtricity System Manager

https://kb.netapp.com/on-prem/E-Series/SANtricity-OS-KBs/Auto_configuration_of_drive_alerts_fails_to...

Updated: Sat, 04 Apr 2026 20:52:31 GMT

Applies to

- NetApp E-Series Storage Arrays
- SANtricity System Manager
- SANtricity OS
- All models running SANtricity 11.70.2 and similar firmware versions

Issue

After replacing the failed drives, the following alert continued to appear in SANtricity System Manager **Cannot Auto configure Drives**.

- SANtricity System Manager reported all other components as Optimal.
- The affected drives were displayed in an Unassigned state.
