

Can on-premises ONTAP volumes be backed up to cloud services with backup protection features?

https://kb.netapp.com/on-prem/ontap/DP/SnapMirror/SnapMirror-KBs/Can_on-premises_ONTAP_volu...

Updated: Sun, 05 Apr 2026 14:39:58 GMT

Applies to

- ONTAP 9
- Backup protection services (Azure Backup, AWS Backup, S3 Object Lock)

Answer

- Yes, Backing up on-premises ONTAP volumes to cloud services with backup protection features is supported.
- Supported backup destinations include:
 - Amazon S3
 - Azure Blob

- Google Cloud Storage
- NetApp StorageGRID
- ONTAP S3
- Configuration requirements and prerequisites depend on the selected backup destination.
- For Configuration and best practices, refer to
 - [NetApp Backup and Recovery](#)
