

SANtricity System Manager event log records multiple "VDD logged an error" events

https://kb.netapp.com/on-prem/E-Series/Hardware-KBs/SANtricity_System_Manager_event_log_record...

Updated: Sat, 04 Apr 2026 18:47:13 GMT

Applies to

- E-Series
- SANtricity System Manager

Issue

- Event log records multiple recovered events.

```
A:mm/dd/yy, 7:52:39 AM (07:52:39) 6166 2014 VDD logged an error - Shelf  
99, Bay A - SSID: 0, Devnum: 0x00xx LBA: 0x00xx, Blocks: 0x00xx -  
Recovered
```

- All drives show `Status: Optimal`.
