

Veeam backup is not working on a volume via NFS

https://kb.netapp.com/on-prem/ontap/da/NAS/NAS-KBs/Veeam_backup_is_not_working_on_a_volume...

Updated: Sun, 05 Apr 2026 10:01:28 GMT

Applies to

- ONTAP 9
- Veeam Backup & Replication
- NFS protocol (NFSv4)

Issue

- Veeam backup jobs fail or do not start
- Veeam console shows repository or volume access denied
- Backups to other vservers and their volumes in the same subnet are working
- Cannot ping the gateway or client from the SVM LIF

- All DNS services are down for the SVM
