

Which ONTAP feature may support to apply PQC algorithms?

https://kb.netapp.com/on-prem/ontap/Ontap_OS/OS-KBs/Which_ONTAP_feature_may_support_to_ap...

Updated: Sun, 05 Apr 2026 15:37:20 GMT

Applies to

- ONTAP 9.18.1 and later
- Post Quantum Cryptography (PQC)

Answer

PQC can be negotiated bidirectionally in both server and client in all the features which use TLS configuration when FIPS is disabled and the peers supports them.
