

## CONTAP-677102: file-directory ntfs dacl results in SecD Error: invalid sid string

<https://kb.netapp.com/on-prem/ontap/da/NAS/NAS-Issues/CONTAP-677102>

Updated: Sat, 04 Apr 2026 17:34:42 GMT

### Issue

When using functions like "file-directory ntfs dacl add..." which require SID validation in both the forward and reverse direction, ONTAP may return the error:

Error: command failed: Failed to convert SID to a Windows name. Reason: "SecD Error: invalid sid string".
