

CONTAP-627150: ClusterSwitchConnectionDegraded_Alert on one node after ONTAP upgrade

https://kb.netapp.com/on-prem/ontap/Ontap_OS/OS-Issues/CONTAP-627150

Updated: Sun, 05 Apr 2026 22:02:51 GMT

Issue

- After ONTAP upgrade, one node reports ClusterSwitchConnectionDegraded_Alert
- However, both cluster switches are discovered in `network device-discovery show` output and all cluster ports are up and functional
- AutoSupport HA Group Notification (Health Monitor process `cshm: ClusterSwitchConnectionDegraded_Alert[cluster-01]`) ALERT is generated weekly following the upgrade
