

CSNAPC-11759: BNR for Oracle should contain the ability to delete log backups

<https://kb.netapp.com/data-mgmt/SnapCenter/SC-Issues/CSNAPC-11759>

Updated: Wed, 22 Jul 2026 03:16:00 GMT

Issue

In Backup and Recovery for Oracle there should be the ability to delete Log backups on demand under the `Inventory>Protection>Click the three dot icon that is next to the snapshot name>Delete local snapshot`

This should be similar to being able to delete snapshots with the Backup type of Data.
