

## What is E-Series SMI-S Array Management Utility error code 10?

[https://kb.netapp.com/Advice\\_and\\_Troubleshooting/Data\\_Storage\\_Software/E-Series\\_SANtricity\\_Soft...](https://kb.netapp.com/Advice_and_Troubleshooting/Data_Storage_Software/E-Series_SANtricity_Soft...)

Updated: Fri, 30 Jul 2021 07:11:09 GMT

### Applies to

E-Series

### Answer

When trying to add a storage system to the E-Series SMI-S Provider using the Array Management Utility software, the utility performs a communication check with the storage system prior to adding the system to the Provider. If the communication test does not pass, then a code 10 will be returned.

Check to make sure network traffic can pass to the storage systems from the SMI-S Provider server. Port 2463 needs to be open, as the Provider uses it to communicate to the storage systems.
