

COTV-9424: OTV 10.6 upgrade fails with NTP error

https://kb.netapp.com/data-mgmt/OTV/OTV_Issues/COTV-9424

Updated: Thu, 17 Sep 2026 10:04:38 GMT

Issue

During a OTV upgrade to 10.6 the upgrade fails with the following error:

Upgrade fails with:

fatal: FAILED! => \{"msg": "Script failed with status: 2, message: Error: NTP server '192.168.50.100' or its alias not found in chronyc sources or chronyc sourcestats output"}\}

Followed by NTP rollback to ntpsec and final error:

NTP upgrade has failed with error code 06094
