

Copy performance is inconsistent within FlexGroup

https://kb.netapp.com/on-prem/ontap/Perf/Perf-KBs/Copy_performance_is_inconsistent_within_FlexGr...

Updated: Fri, 18 Sep 2026 06:22:10 GMT

Applies to

- ONTAP 9
- FlexGroup
- CIFS
- Microsoft Windows
- Microsoft Offloaded Data Transfer (ODX)

Issue

- When multiple files in a row within a CIFS share on a FlexGroup, copy throughput varies between files by a magnitude of 10
- ODX is enabled, meaning copying is done within ONTAP rather than over the network
