

Slow storage efficiency operations after copying LUN from a FlexVol [volume]

https://kb.netapp.com/Advice_and_Troubleshooting/Miscellaneous/Slow_storage_efficiency_operations...

Updated: Sun, 11 Jul 2021 11:18:44 GMT

Applies to

- ONTAP 9
- FlexVol [volume]
- LUN Copy
- FlexClone volume
- FlexClone split

Issue

- Storage efficiency jobs on the destination are very slow

- Storage efficiency results are much lower than on the source
