

SnapCenter Plug-in for Oracle cloned devices do not enumerate correctly after a reboot of the Linux host

https://kb.netapp.com/Advice_and_Troubleshooting/Data_Protection_and_Security/SnapCenter/SnapC...

Updated: Tue, 10 Aug 2021 01:37:55 GMT

Applies to

SnapCenter Plug-in for Oracle

Issue

- Clone has been created of an Oracle database using SnapCenter Plug-in for Oracle
- The Linux host on which the clone was created was rebooted
- The devices are not in the same order as they were before the reboot so the cloned database will not function
